## Key Skills

- Java
- SQL
- Web Development
- MongoDB
- React.Js
- Fullstack Development

## Certification

- Data Structures And Algorithms: Deep Dive Using Java
- Web Development

## Languages

- English

## Profile Summary

With a strong foundation in Data Structures and Algorithms and a certificate in Web Development, I am equipped with extensive knowledge in Java, SQL, and Web Development. My academic scores consistently exceed 90%, demonstrating my dedication and proficiency in academics. I have honed my skills in MongoDB, React.js, and Fullstack Development through internships, resulting in tangible contributions such as optimizing database queries to improve performance by 40%. I am eager to leverage my abilities in a challenging role that offers the opportunity to further develop and contribute to innovative projects.

## Education

### B.Sc - Maths

2025

Mahatma Jyotiba Phule Rohilkhand University (MJPRS)

## Projects

### Personal Portfolio Website:

1 Days

Developed a personal portfolio website to demonstrate expertise in HTML, CSS, JavaScript, and responsive design.

### Blogging Platform:

5 Days

Built a full-stack blogging platform with a focus on implementing CRUD operations using React, Node.js, Express.js, and MongoDB.

## **E-commerce Website**

1 Weeks

Created an e-commerce website with dynamic UI components using React/Angular, and integrated REST APIs, payment gateways, and database management.

## **Social Media Application:**

1 Weeks

Designed and developed a social media platform with real-time notifications and user authentication, utilizing React, WebSockets, Node.js, and MongoDB.

## **Chat Application**

8 Days

Implemented a real-time chat application using React and WebSockets with Firebase for real-time database integration.
